

MENIFEE VALLEY AMATEUR RADIO CLUB VHF NET PROTOCOL

(At 6:25pm please announce on the repeater, (W6CDW, 144.895 + offset, pl 156.7) that the Menifee Valley Amateur Radio Club weekly net will begin on this frequency in 5 minutes.

This is a good time for Net Control to get a radio check to verify a solid signal into the repeater.

Is the frequency in use? <N6MVA> (BREAK)

QRZ: A Clear frequency is requested. If at any time there is any emergency or priority traffic the net will standby. If there is any emergency or priority traffic at this time, please come now <N6MVA> (BREAK)

QST: Menifee Valley Amateur Radio Club meets on this frequency every Tuesday at 6:30 pm Pacific local time for our weekly net. Our monthly business meeting convenes on the second Thursday of each month in the Community Room of the Provident Bank in Sun City. We gather at 7:00 pm for social exchanges and the meeting begins promptly at 7:30 pm. Please feel free to contact us directly or through our club website.

www.menifeevalleyarc.org (BREAK)

All licensed operators are welcome to join these weekly nets and all interested parties, licensed or not, are welcome to our monthly meetings. The purpose of this net is to exchange information relative to Amateur Radio and/or of interest to the club or community. We encourage guest check-ins and their contributions. We will honor all breaks for emergency traffic, and will speak to anyone licensed or not in an emergency. (BREAK)

This is a directed net, meaning all traffic must go through your Net Control station. This week your Net Control operator is <CALL SIGN, NAME, and LOCATION>.

At this time I will hand over the net to our club president, Pat Reilly N6WHZ, for our weekly announcements. <N6MVA>

If there are any additional announcements that MUST go before the roll call, please come now. (BREAK)

I will now call roll in order as listed on the latest website Net Check-in list, followed by a call for missed or late members and guest check-ins. After guest check-ins and comments, I will poll the Club Members for comments. At the end of the net, there will be a replay of the ARRL Audio News, if available. When checking in, please slowly and clearly give your FULL CALL SIGN, NAME, and LOCATION only. <N6MVA> (BREAK)

(Please be sure to take breaks to check for late or missed members. Please poll the guests for comments before going back through the members for comments. Mention the club website a couple of times during the net. (www.menifeevalleyarc.org))

On behalf of the Menifee Valley Amateur Radio Club, thank you all for your participation this evening. We would also like to thank Cliff W6CDW, and the Secret Squadron Radio Club for their efforts and the use of this fine repeater system. 73 to All. <N6MVA> (If the ARRL Audio is available, hand the net over to that operator)
